HEMRAJ PATEL

Security Engineer | SOC Analyst | Governance, Risk & Compliance (GRC) | IT Analyst

New York, NY 11228 | +1 (718) 513-8585 | Hemraj@osiris.cyber.nyu.edu | LinkedIn | GitHub | Portfolio

SUMMARY

M.S. Cybersecurity graduate (May 2026) with 2+ years across IT security engineering, security operations, and risk management, open to Security Engineer, SOC Analyst, GRC, or IT Analyst roles.

EDUCATION

Master of Science, Cybersecurity | GPA: 3.57 | ***New York University*** | New York, NY **Sep 2024 – May 2026**

Coursework: Cryptography, Ethical Hacking, Cyber Resiliency Management, Information Privacy, AI Governance

SKILLS

Standards & Frameworks: NIST CSF 2.0, NIST AI RMF, ISO 27001, ISO 42001, CIS Controls, MITRE ATT&CK, MITRE ATLAS, PCI DSS, SOC 2, GDPR, CCPA, HIPAA

Blue-Team Operations: SIEM (Splunk, Elastic ELK), SOAR (Splunk Phantom), IDS/IPS (Snort), EDR, threat hunting, threat intelligence (IOCs, TTPs), digital forensics (EnCase, FTK, Autopsy), Wireshark, Zeek, Tcpdump

Testing & AppSec Tooling: Nessus, OpenVAS, Tenable, Nmap, Burp Suite, OWASP ZAP, Metasploit, SAST, DAST, OWASP Top 10 testing methodologies, Microsoft TMT, promptfoo, LLM prompt-injection testing

Cloud & Network: AWS (EC2, S3), IAM, firewalls, security protocols (TLS/SSL, OpenSSL), Cloudfox, Shodan, Censys

IT Support & Systems: Windows & Linux administration, Microsoft 365, Jira ticketing, access control & account provisioning, TCP/IP, DNS, DHCP, VPN, remote desktop troubleshooting, root-cause analysis, technical documentation

Programming & Automation: Python, Bash, SQL, JavaScript, C++, REST APIs, Git, CI/CD, security automation

Certifications: CompTIA Security+, Google Cybersecurity; CySA+ and CISSP in progress

PROFESSIONAL EXPERIENCE

IT Analyst | ***Luvansh*** | New York, United States **Jul 2026 – Present**

- Conducted internal IT audits against NIST CSF 2.0, ISO 27001, and SOC 2, driving 200+ findings to closure.
- Managed IAM in Active Directory and Entra ID for 350+ users, removing 75+ unused permissions via access reviews.
- Reviewed and tested an AI chatbot using promptfoo and MITRE ATLAS to check for prompt injection and data leaks.

Security Research Assistant | ***New York University*** | New York, United States **Sep 2024 – May 2026**

- Led governance and audit-readiness work, mapping controls to regulations and raising compliance posture 20%.
- Trained staff and students through security awareness workshops on data protection and cyber hygiene, applying clear communication skills to lift phishing detection 30%.
- Researched adversarial ML threats and delivered risk-based mitigation guidance for graduate course material.

Security Engineer | ***Span Inspection System Pvt. Ltd.*** | Gandhinagar, India **May 2023 – Jul 2024**

- Collaborated with cross-functional teams to scale vulnerability management across cloud, on-premises, and critical infrastructure environments, automating scans to remediate 100+ findings and cut high-severity risk 40%.
- Championed continuous improvement of patch workflows, fusing CVE and CVSS intelligence into dashboards and adversary-informed playbooks to raise endpoint compliance to 95% and triage efficiency 35%.
- Performed threat modeling on system designs plus packet-level traffic analysis, exposing data exfiltration attempts and misconfigurations to boost detection accuracy 25%.

Security Analyst | ***TechDefenceLabs Solution Pvt. Ltd.*** | Ahmedabad, India **May 2022 – May 2023**

- Executed security assessments and penetration tests across enterprise web applications, closing 150+ flaws and lifting overall security posture 15%.
- Monitored 24/7 event queues, proactively prioritizing alerts and tuning correlation logic to cut false positives 28%.
- Owned audit support - control mapping, gap analysis, and continuous monitoring across engagements.

PROJECTS

- **LLM PackageGuard - Supply-Chain Security (*OSIRIS Lab, NYU*):** Created a dependency scanner that detects hallucinated or malicious packages in AI-generated code by validating imports against PyPI, OSV, and GitHub APIs.
- **Swiper No Swiping - PII Detection Chrome Extension:** Developed a browser extension that flags sensitive information in documents before web upload, an innovation preventing exposure of confidential data.

LEADERSHIP & ACTIVITIES

- **OSIRIS Labs (NYU Center for Cybersecurity):** Core member; led coordination of CSAW, the largest student-run security event; Top-10 national Capture-the-Flag finishes.
- **National Swimming Tournament - Silver Medalist (2019, 2023):** 18 years of training, teamwork, and commitment.
